

Öncelikle Gizli Klasörleri açmamız gerekiyor.

Gizli Klasörler açıldıktan sonra

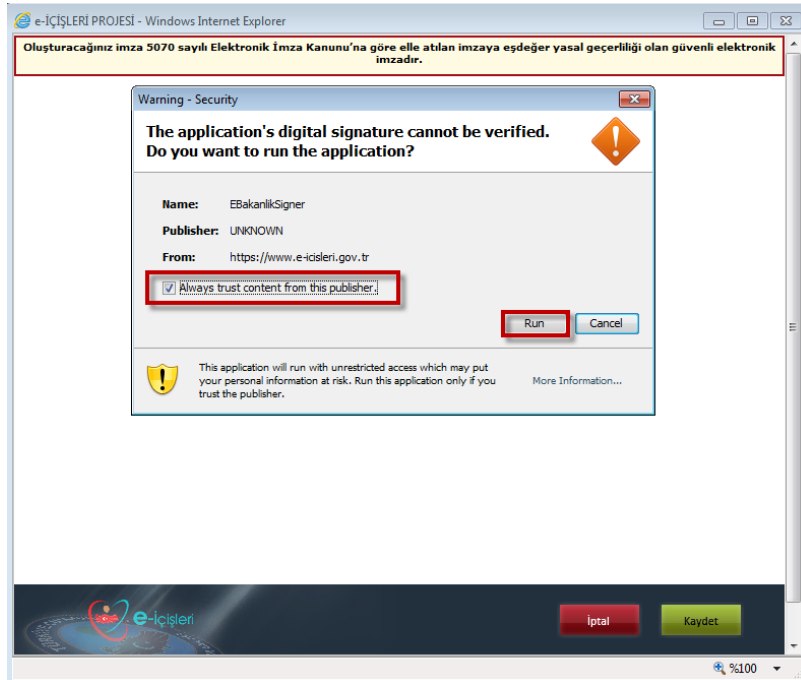

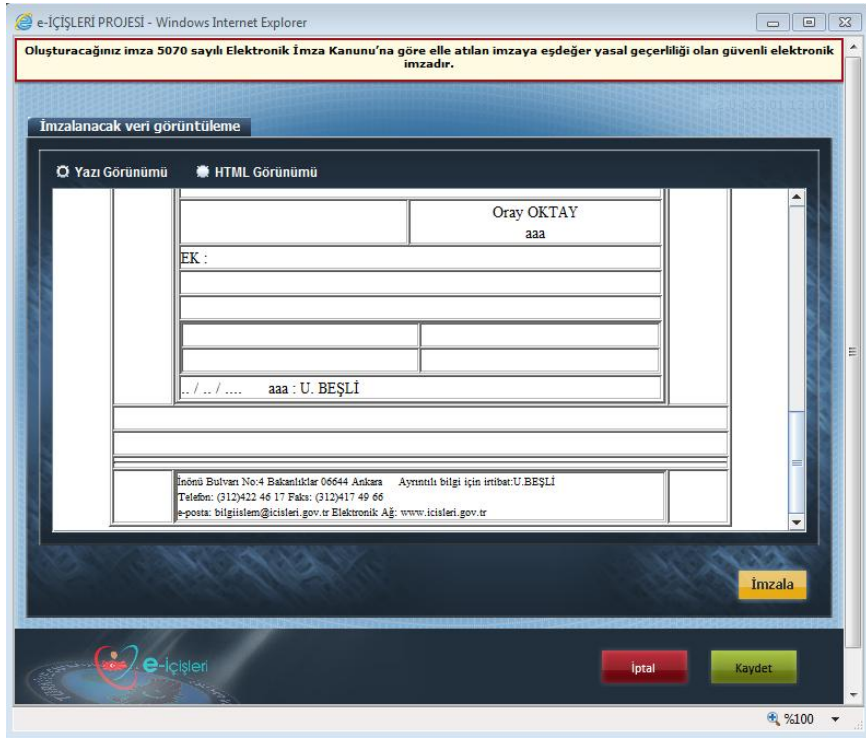

1.YOL:

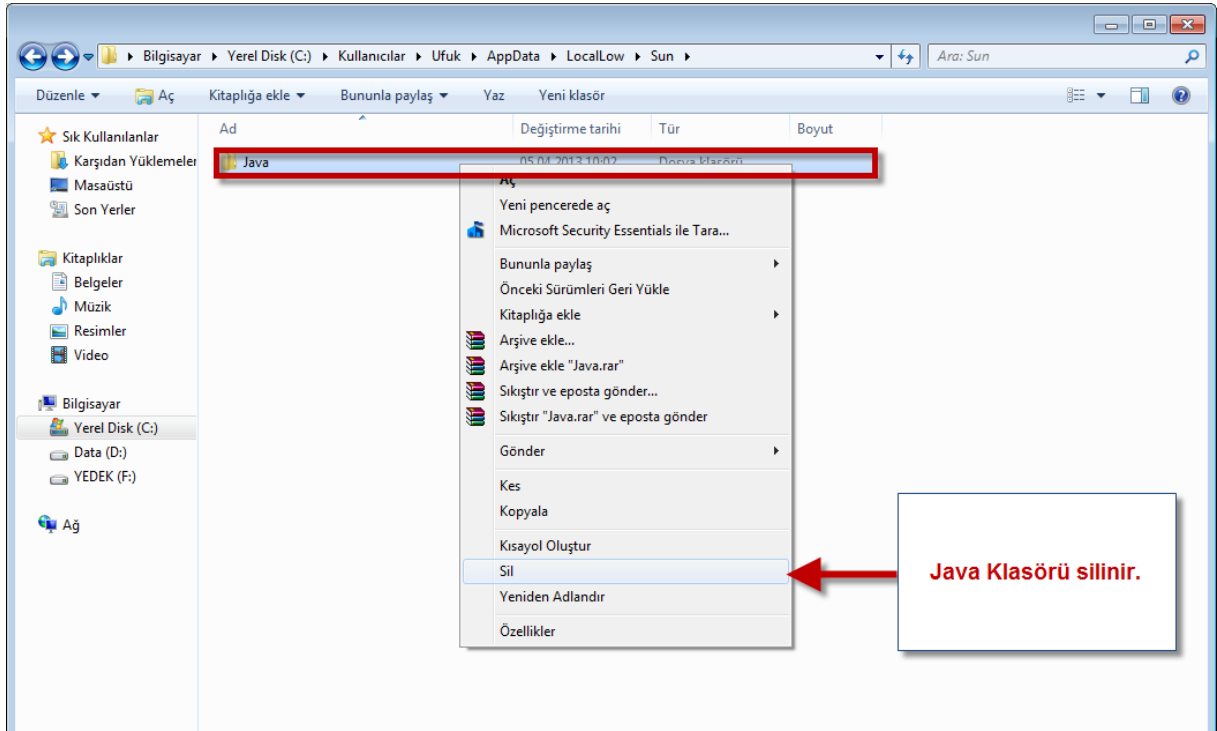

Bu işlemleri yaptıktan sonra ilk seferde sunucudan gerekli verileri indirir ve bunları LocalLow içinde tutar. İnternet hızı ve sunucu yoğunluğuna bağlı olarak uzun sürebilir.

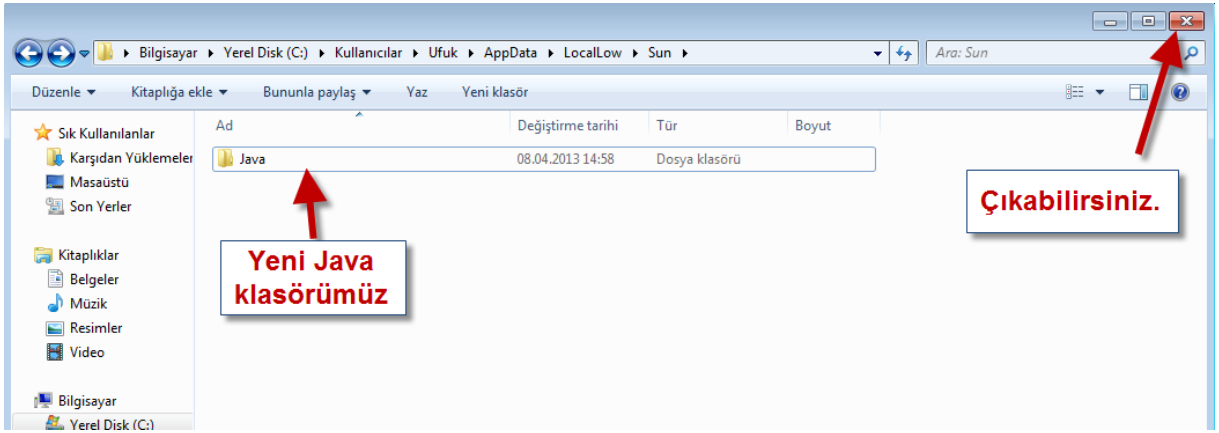

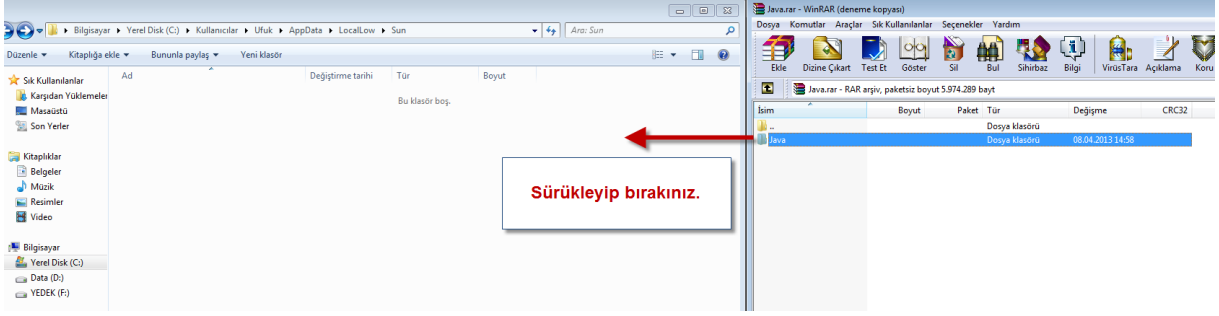

2.YOL:

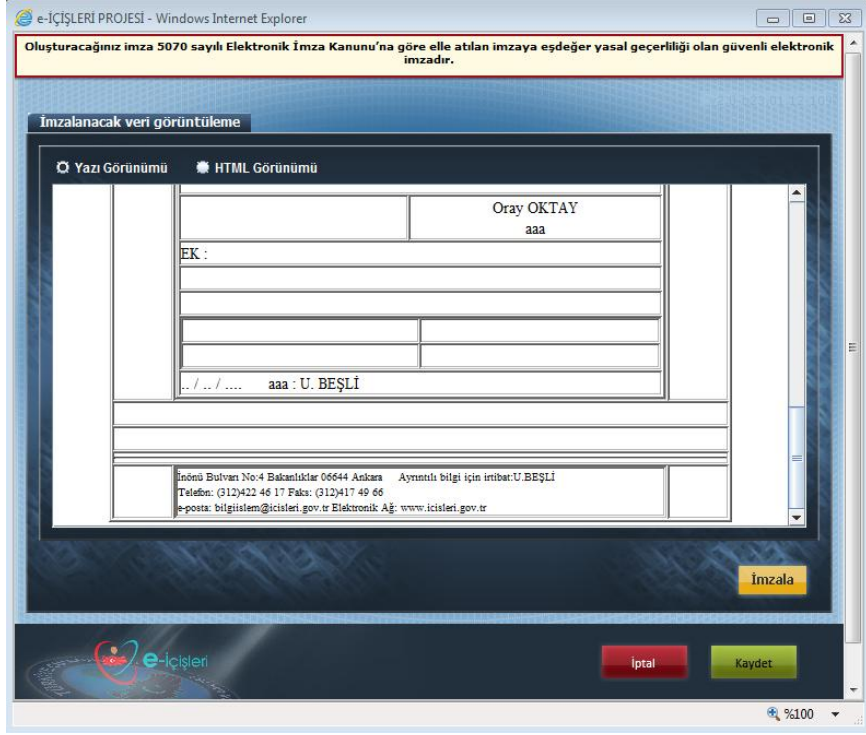

Ekte gönderilen Java.rar içerisindeki klasörü aşağıdaki alana çıkartınız.

İmzalama yapabilirsiniz.
